

ANNOUNCING: A MAJOR FACILITY UPGRADE

The Center has a full-scale renovation of its locker rooms planned in two phases: a renovation of the men's locker room (March 2022), and the women's locker room (August 2022). Please familiarize yourself with the important following changes as they might affect your daily schedule.

Men's Locker Room

Closed March 7 – March 25

(subject to change)

- During Phase I of construction, we are running a modified pool schedule that affects swim start and end times, and where there is shared use of the women's locker rooms. That schedule can be found attached to this notice.
- Men will have use of the women's locker rooms at select times where they can change and store their items on a temporary, daily basis:

From March 7 – 25, the women's locker room will be unavailable to women, but available to men, during these times:

- Monday through Friday, 6:30 AM to 9 AM
- Monday and Wednesday, from 5 PM to closing
- Sundays, from 8 AM to 1 PM
- A locker room attendant will be on hand to ensure that there is no mixing of genders at any time.
- **Important:** Please adhere to the schedule very carefully and be sure to exit the pool (and locker room) by the posted time. No exceptions.

Women's Locker Room

Planned for mid-August

More information surrounding *Phase II* of construction can be expected shortly.

We plan to work safely and swiftly, and cannot wait for you to enjoy the final result. Thank you for your support and understanding.

MODIFIED POOL SCHEDULE

→ **EFFECTIVE MARCH 7-25** ←
